28<sup>th</sup> September 2018

Dear Parents/Carers

### Overseas link – Year 3 and Year 4

Developing a global perspective is an important part of the curriculum at Northside and we are very excited to have recently made an overseas link with Shijou Primary School in Taiwan - <http://www.sjps.ylc.edu.tw/English/>.

The children now have pen pals at the school and will be exchanging letters and cards. We also plan to share videos about their schools so they can learn what it is like to be educated in another part of the world. We hope this international link will broaden our children's' understanding of the world and give them an opportunity to find out what school life is like in another country.

This letter is to inform you of this link and that your child may feature in a photograph or video. If you do not give permission you must let us know in writing.

Yours Sincerely

Mrs Ng

**International Links Leader**
